August 1, 2008

Dear Valued Customer:

On July 2, 2008 Fidelity National Information Services, Inc. announced the completion of the Lender Processing Services, Inc. (LPS) spin-off (NYSE: LPS). In order to better reflect our position as a key service provider within LPS, FIS Flood Services will change its name to LPS National Flood. You will begin seeing the name change on products, websites and communications on September 1, 2008.

LPS is a leading provider of integrated technology and services to the mortgage industry. LPS offers solutions that span the mortgage continuum, including lead generation, origination, servicing, portfolio retention and default, augmented by the company's award- winning customer support and professional services. Approximately 50 percent of all U.S. mortgages are serviced using LPS' Mortgage Servicing Package (MSP). In fact, many of the nation's top servicers rely on MSP, including seven of the top 10 and 16 of the top 20. LPS also offers proprietary mortgage and real estate data and analytics for the mortgage and capital markets industries.

All of us at LPS National Flood, who have worked with you in the past, look forward to continuing to service your flood data needs today and in the future. There will be no interruption in your service or structural change in our operations, and customer satisfaction will continue to be our top priority. Your current contracts, service agreements and indemnifications with FIS Flood Services remain in force.

Please contact us with any questions or comments at (800) 833-6347 and dial 2 for Customer Service.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mark T. Reedy". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.

Mark T. Reedy
President
LPS National Flood
